

Town of Olive  
Local Flood Analysis  
Town Board and Public Meeting #1  
Meeting Agenda  
4/15/15 7:00pm  
Town of Olive Town Meeting Hall

1. Introduction to LFA

A. Roles and Responsibilities of the LFA participants

- i. Conceptual model of the Local Flood Analysis's (LFA) participants
- ii. How does it work?
- iii. What does it tell us?

B. Schedule

- i. Milestones
- ii. Future public meetings

2. Introduction to CRS

Introduction to CRS, schedule, milestones, etc.

3. Local Flood Committee Meeting Technical Session

A. Flood Source Understanding

- i. Where are the Boards' priority flood areas, what is their understanding of flood sources and their thoughts on flood mitigation.
- ii. Where are the public's priority flood areas, what is their understanding of flood sources and their thoughts on flood mitigation. Explain how they can fill this out.

B. Technical Session

- i. Where are the opportunities to address smart growth (future development)

C. Prioritization Session

- i. What are the prioritization metrics we want to use to prioritize sites?

This will help give weight to sites that have a low BCA ratio or have not been repaired/suffered loss of service before. (Ex. Cultural significance, critical emergency service/commerce/cultural road corridor, residents who little resources to repair flood damage or afford flood insurance)

- ii. Who will be the designated contact for damage benefits, what is the status of record keeping?

iii. Explain how the damage benefit cost questioner for private homes and businesses will work and what information is need, show example.

iv. Explain how the damage benefit cost questioner for the municipality will work and what information is needed, show example.

D. CRS Session

#### 4. Next Steps

A. Revisit schedule and discuss next milestones

B. Existing Data Gap Analysis and develop field methodology

C. Begin hydraulic modeling

D. Prepare Damage Benefit Questioner for Municipality and Residents/Businesses
